

Securing Your Journey
to the Cloud

Trend Micro™

Titanium™ Maximum Security

Your digital life—protected.

Strong, fast and easy-to-use Trend Micro™ Titanium™ Maximum Security provides the maximum protection for everything you do online. It's your all-in-one security solution.

Titanium uses cloud technology to proactively stop viruses, spyware, and other threats before they reach your computer, so it won't slow you down. It's the same technology we use to protect some of the world's biggest businesses. Now, it's available to you and includes parental controls, data theft prevention, secure online storage, smartphone security, and more.

With Trend Micro Titanium Maximum Security, your digital life is protected.

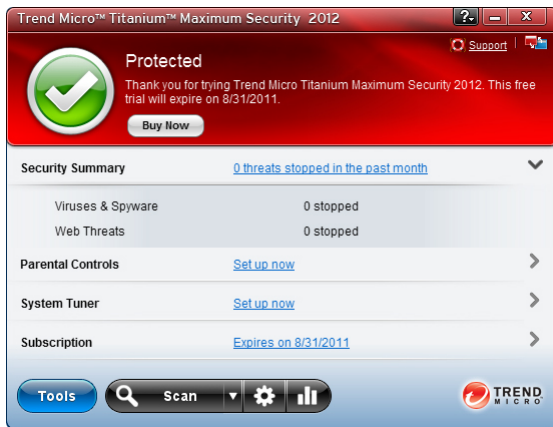

1 user \$59.95 / 3 users \$79.95

Key Benefits:

- Automatically stops threats before they reach your computer
- Uses less than half the disk space and memory of competing security products
- Monitors and limits kids' online activity and access to inappropriate content
- Keeps your information like credit card numbers and passwords private
- Protects you from dangerous links posted on sites like Facebook and Twitter
- Stores and shares up to 10GB of your precious photos, documents and more in the cloud
- Extends your Titanium security to your smartphones and tablets, including Android™ devices
- Protects your Mac devices

Strong protection made simple

From the main Titanium console screen, you can run a scan or get up-to-the-minute status reports on your computer's security.

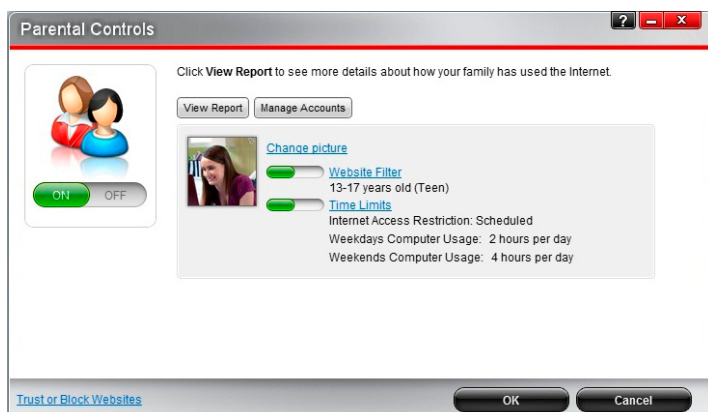

Social networking security

It protects you from malicious links on Facebook and Twitter.

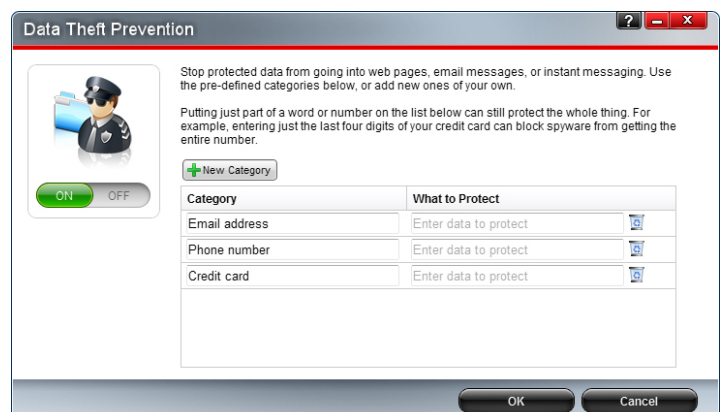

Easy, adjustable parental controls

Protect your children from inappropriate websites and limit their time online.

Data theft prevention

Prevent hackers and spyware from stealing sensitive data like credit card numbers, passwords, and email addresses.
