Trend Micro

PREMIUM SECURITY

Comprehensive Web and Multi-Device Protection

Trend Micro™ Premium Security provides comprehensive, multiple device protection and privacy for your digital life. It’s unique security, designed to safeguard you and your family on social networks like Facebook, Google+, Twitter, and LinkedIn. With its parental controls, you can restrict or filter website access when your kids go online.

Additionally, there are password management tools and storage for up to 25 GB of your files in the cloud. Premium Security gives you the flexibility to protect up to 5 devices — any combination of PC, Mac, or mobile (iOS and Android) devices. This is all-in-one security for practically everything you do online.

KEY BENEFITS

Trend Micro Premium Security software provides essential web protection. It does the following:

- **Blocks Dangerous Websites**
  Protects against viruses by identifying and blocking dangerous links on websites and in social networks, emails, and instant messages

- **Protects Your Privacy on Facebook, Google+, Twitter, and LinkedIn**
  Identifies privacy settings on social sites that may expose your personal information and lead to identity theft

- **Manages and Encrypts Passwords**
  Includes a password manager to easily sign into websites without having to remember multiple passwords. Works across multiple devices

- **Protects Kids Online**
  Lets you control desktop application access and restrict online access for kids, protecting them from inappropriate websites

- **Guards against Identity Theft**
  Detects spam emails containing phishing scams that can trick you into revealing personal information

- **Tunes Up System**
  Fixes common PC problems and optimizes to restore your system to top speed

- **Secures Android and iOS Mobile Devices**
  Locates lost or stolen devices, provides a secure browser, and does regular backups of your contacts

WHY IT'S BETTER

Based on 25+ years of security software industry leadership and expertise, Trend Micro Security delivers:

- The fastest web protection against new Internet threats\(^1\)
- Top-rated defense, blocking sites trying to trick you into downloading malware\(^1\)
- Protection against 250+ million threats per day
