Trend Micro™

DEEP SECURITY™ 20 TRAINING FOR CERTIFIED PROFESSIONALS

COURSE DESCRIPTION:

Trend Micro™ Deep Security™ 20 Training for Certified Professionals is a three-day, instructor-led training course. Participants will learn how to use Trend Micro™ Deep Security™ software for advanced hybrid cloud security on physical, virtual, and cloud-based servers. This course details the basic architecture of the on-premises Deep Security solution, deployment options, protection modules, policy configuration, and administration of the system. As part of the course, participants will deploy Deep Security agents on a variety of Windows® Server platforms, as well as the Deep Security Virtual Appliance. Best practices and troubleshooting details for successful implementation and long-term maintenance of the system are discussed.

This course is taught by Trend Micro certified trainers and incorporates a variety of hands-on lab exercises, allowing participants to put the lesson content into action.

Target Audience:

This course is designed for IT professionals who are responsible for protecting users, networks, data centers, and cloud resources from data breaches and targeted attacks. This includes those responsible for:

- Operations
- Deployment
- Security Response
- Compliance
- Support

The course incorporates a variety of hands-on lab exercises, allowing participants to put the lesson content into action.

CERTIFICATIONS AND RELATED EXAMINATIONS:

Upon completion of this course, participants may choose to complete the certification exam to obtain designation as a Trend Micro Certified Professional for Deep Security.

PREREQUISITIES:

There are no prerequisites to attend this course, however, a working knowledge of Trend Micro products and services, as well as an understanding of basic networking concepts and principles will be helpful.

Basic knowledge of the following topics is also beneficial:

- Windows servers and clients
- Firewalls and packet inspection devices
- VMware® ESXi/vCenter/NSX
- Amazon Web Services/Microsoft® Azure®/VMware vCloud®/Google Cloud Platform™
- Virtualization technologies

Participants are required to bring a laptop computer with a recommended screen resolution of at least 1980 x 1080 or above and a display size of 15” or above.
DETAILED COURSE OUTLINE:

Topics covered:

Product Overview
- Introduction to Deep Security
- Deep Security protection modules
- Deep Security deployment options
- Deep Security components

Trend Micro™ Deep Security™ Manager
- Server, operating system, and database requirements
- Deep Security Manager architecture
- Installing and upgrading Deep Security Manager

Deploying Deep Security Agents
- Deep Security agent architecture
- Deploying Deep Security agents

Managing Deep Security Agents
- Command line operations
- Resetting agents
- Protecting agents
- Viewing computer protection status
- Upgrading Deep Security agents
- Organizing computers using groups and Smart Folders

Keeping Deep Security Up to Date
- Security updates
- Software updates
- Deep Security relays

Trend Micro™ Smart Protection™
- Smart Protection services used by Deep Security
- Configuring the Smart Protection source

Policies
- Policy inheritance and overrides
- Creating new policies
- Running recommendation scans

Protecting Servers from Malware
- Anti-malware scanning techniques
- Enabling anti-malware protection
- Smart Scan

Blocking Malicious Websites
- Enabling web reputation
- Setting the security level

Filtering Traffic Using the Firewall
- Enabling the Deep Security firewall
- Firewall rules
- Traffic analysis
- Traffic order of analysis
- Port scan

Protecting Servers from Vulnerabilities
- Virtual patching
- Detecting suspicious network activity
- Web application protection
- Enabling intrusion prevention

Course Objectives:
After completing this training course, participants will be able to:
- Describe the purpose, features, functions, and capabilities of Deep Security 20
- Define and install components that make up Deep Security
- Implement security by enabling protection modules
- Describe available configuration and administration options
- Attempt the Trend Micro Certified Professional for Deep Security Certification Exam

Why Choose Trend Micro Education
- Hands-on instruction from Trend Micro certified trainers
- With Trend Micro product certifications, you have the skills to deploy and manage our leading security solutions
- By sharpening your skills, you are in a position to better detect and respond to the latest attacks

For More Information:
Please contact Trend Micro Education at education@trendmicro.com

Appendix Topics
- Activating and managing multiple tenants
- Protecting virtual machines using the Deep Security virtual appliance
- Troubleshooting common Deep Security issues
