

Trend Micro Announces Revision of Forecast of Consolidated Financial Results for the Second Quarter of Fiscal Year 2004

TOKYO, Japan, July 26, 2004 -- Trend Micro (TSE: 4704; Nasdaq: TMIC), a leader in network antivirus and Internet content security software and services, today announced that the forecast of consolidated financial results for the second quarter of the fiscal year 2004, is revised as set forth below.

1. Revision of forecast of financial results for the second quarter of consolidated FY2004

(April 1, 2004 to June 30, 2004)

(in millions of yen)

	Net Sales	Operating Income	Net Income
Forecast previously published (A)	13,500	4,500	2,650
Revision made (B)	14,843	6,262	3,828
Amount of increase (B - A)	1,343	1,762	1,178
Ratio of increase or decrease	+9.9%	+39.2%	+44.5%

2. Reason for Revision

The company has decided to revise its forecasts because operating income and net income are expected to deviate by more than 30% from the previous forecast.

About details of results, the company will disclose on the day of its financial results announcement, July 29, 2004.

Notice Regarding Forward Looking Statements

Certain statements that we make in this release are forward-looking statements. These forward-looking statements are based upon management's current assumptions and beliefs in light of the information currently available to it, but involve known and unknown risks and uncertainties.

Many important factors could cause our actual results to differ materially from those expressed in our forward-looking statements.

These factors include:

- Difficulties in addressing new virus and other computer security problems
- Timing of new product introductions and lack of market acceptance for our new products
- The level of continuing demand for, and timing of sales of, our existing products
- Rapid technological change within the antivirus software industry
- Changes in customer needs for antivirus software
- Existing products and new product introductions by our competitors and the pricing of those products
- Declining prices for products and services
- The effect of future acquisitions on our financial condition and results of operations
- The effect of adverse economic trends on our principal markets
- The effect of foreign exchange fluctuations on our results of operations
- An increase in the incidence of product returns
- The potential lack of attractive investment targets and
- Difficulties in successfully executing our investment strategy

We assume no obligation to update any forward-looking statements.

For more details regarding risk factors relating to our future performance, please refer to our filings with the SEC.
