The Exercise Price shall be the closing price of the ordinary shares of the Company established through regular transactions reported by the Tokyo Stock Exchange on the date when the Options will be allotted or the immediately preceding date of such date if there is no trading on such date.

In the event of stock split or consolidation occurring after the date of allotment of the Options, the Exercise Price shall be adjusted using the following formula and any fractions less than one (1) yen resulting from such adjustment shall be rounded up.

$$\begin{array}{c} \text{Exercise Price} \\ \text{after} \\ \text{Adjustment} \end{array} = \begin{array}{c} \text{Exercise Price} \\ \text{before} \\ \text{Adjustment} \end{array} \times \frac{1}{\text{Split/Consolidation Ratio}}$$

In the event of issuance of new shares or disposition of treasury stock at a price less than the market price (excluding the exercise of the Options and conversion of securities to be converted or convertible into ordinary shares of the Company), then the Exercise Price shall be adjusted using the following formula and any fractions less than one (1) yen resulting from such adjustment shall be rounded up.

$$\begin{array}{c} \text{Exercise} \\ \text{Price after} \\ \text{Adjustment} \\ t \end{array} = \begin{array}{c} \text{Exercise} \\ \text{Price} \\ \text{before} \\ \text{Adjustment} \\ t \end{array} \times \frac{\begin{array}{c} \text{Number of} \\ \text{Shares issued} \\ \text{and} \\ \text{outstanding} \end{array} + \frac{\begin{array}{c} \text{Number of} \\ \text{Shares newly} \\ \text{issued} \end{array} \times \begin{array}{c} \text{Subscription} \\ \text{Price per} \\ \text{share} \end{array}}{\begin{array}{c} \text{Share Price before new issue} \\ \text{Number of Shares} \\ \text{issued} \\ \text{and outstanding} \end{array} + \begin{array}{c} \text{Number of Shares} \\ \text{newly issued} \end{array}}$$

In the formula above, “Number of Shares issued and outstanding” shall mean the number calculated by the number of outstanding shares less the number of treasury stock held by the Company and in the event of the disposition of treasury stock, “Number of Shares newly issued” shall be read as “Number of Treasury Stock disposed” and “Share Price before new issue” shall be read as “Share Price before disposition”.
